Design, manufacture and installation of windows, exclusive bi-fold, sliding and composite doors

ekco
Doors & Windows

Welcome to your new **Doors** by ekco

At Ekco we design, manufacture and install doors and windows.

Choose brand new bi-fold or sliding patio doors for your home or business from Ekco's extensive range. Not only do we supply and fit our own Ekco patio doors, we are the exclusive retailers in Scotland of industry renowned bi-fold & sliding doors.

We also have an exclusive arrangement to supply and fit beautiful, luxurious entrance doors with 3 different models and over 600 styles to choose from.

Ekco can design, supply and install your brand new doors and windows, or you can choose our supply-only option which means we will create your bespoke doors and windows and

deliver them from one of our showrooms in Edinburgh, Uphall, Livingston or Cumbernauld, Glasgow direct to your home across the country.

With so many beautiful doors, windows and a service that suits your needs, make Ekco your number one choice for bi-fold, sliding patio doors, entrance doors and windows.

Visit your nearest Ekco showroom or call to discuss your needs

How to contact us...

Your first step is come speak with us.

We are here to help.

By telephone on **01506 857 007**

By email **glazing@ekco.co.uk**

Try before you buy...

We have 3 showrooms across central Scotland. We recommend you come try our products and request a full demonstration by one of our team.

Edinburgh

Unit 4A Abbeyhill Industrial Unit,
off Abbey Lane, Edinburgh, EH8 8HL.

Livingston

54 West Main Street, Uphall, EH52 5DW.

Glasgow (coming soon)

10 Badenheath Pl, Cumbernauld,
Glasgow G68 9HX.

All showrooms are open

Monday to Friday 9:00am - 5:30pm

Saturday 10:00am - 5:00pm.

The Ekco design and installation process

Unsure about any technical details...

During your visit we will explain the products key features, therefore any choices made will be an informed decision. If you have employed an Architect for your project, we can arrange to meet and discuss at length all technical details and performance specifications.

We also recommend sending us the details for your builder so we can start to discuss the important details we require for survey and install. We can also discuss the important dates and keep you in the loop so you know everything is under control.

What's next?

Sit back and relax knowing your project is in hand and we will update you as your order progresses.

Completion sign off

Once your new products are installed we will ask you to fully inspect and sign off as successful completion.

Happy to proceed?

Great! Next, we will arrange a survey and look to confirm an installation date based on the product lead times and when site will be ready.

If you have employed a builder, during site survey, will agree best solution in preparation for installation. At this stage changes can be made, but always with your approval.

Once we have all the final sizes confirmed we will email you an order confirmation for approval. We ask you to check over all details one last time before production starts.

Installation

Our installers will always aim to arrive for 8am in Ekco branded vehicles and Ekco uniforms. All our installers are fully employed by Ekco.

Follow us on Twitter to view some of our recent projects @ekco_scotland

EK99E Bi-Folding Door

This bespoke German engineered Bi-Folding Door system is a luxury product striving for perfection in aesthetic design and perfect functionality. Every component serves a purpose and has achieved a result that is second to none in technology and design. It boasts a 99mm ultra-thin mullion, the envy of other Bi-Fold systems & still maintain the highest possible burglar resistance, certified to RC2 European standards.

When it comes to thermal insulation, the EK99E comes with its own multi-functional thermal break. Its initial design resembled the shape of a turtle & hence named it the bionicTURTLE®. There are many features including several accessory packs, this Bi-Fold is best demonstrated when visiting our showrooms.

Designed and manufactured in Germany, a EK99E can be manufactured and delivered in 7 - 8 weeks.

EK99H Bi-Folding Door

The EK99H Bi-Fold was designed & introduced to provide further advancements to the EK99E. This Bi-Fold system can accommodate glazing from 22mm to 62mm in thickness and will achieve a u value of 0.8 w/m²K, perfect for Passive House performance. The EK99H is engineered with a deeper frame at 84mm but still maintains all the innovative features of the EK99E. The extra frame depth provides even more strength & stability, where door panels can be manufactured up to 3500mm high.

Designed and manufactured in Germany, a EK99E can be manufactured and delivered in 7 - 8 weeks.
