2019 Range Guide

[blanco.co.uk](http://blanco.co.uk)

**BLANCO**  
GERMANY

The heart and soul  
of your kitchen.  
Sinks, taps and more.

Modern convenience  
for all kitchens.  
Perfect solutions from BLANCO.

Sink: ZEROX 6 S-IF, Stainless Steel  
Tap: LINEE-S, Chrome

You should never compromise when buying a sink and tap. What counts above all else is quality – in every respect. As well as the expert use of top-quality materials, contemporary design, professional engineering, attention to the tiniest detail and matching accessories. **It's quite a shopping list.**

BLANCO sinks, taps and accessories create advantages and efficiencies in your kitchen. What we call a 'Sink Centre' is the combination of functional design that you will wonder how you ever lived without and aesthetic qualities that will meet even the highest expectations.

BLANCO is one of the leading suppliers of sinks and taps, with more than 90 years' experience, we are the custodians of **extensive expertise** and will use that skill and passion to keep developing **innovative kitchen products** for our customers.

BLANCO's particular strengths are clever combinations of sinks, taps, accessories and waste management systems that make optimum use of available space, make life easier and continue to look good after many years.

On the following pages, discover how BLANCO products can help make the kitchen the hub of your home and how a BLANCO sink centre will become the heart and soul of your kitchen.

You can also find further information about BLANCO at [www.blanco.co.uk](http://www.blanco.co.uk)

Quality makes  the difference.

# BLANCO turns a sink into a sink centre.

Quality and comfort for the heart of the kitchen.

Sink: SUBLINE 500-IF SteelFrame, SILGRANIT® PuraDur®, Anthracite  
Tap: LINEE-S, Chrome

## Six tips for making the right sink choice.

**Optimum space utilisation for ease of use.** There is a BLANCO solution for any size of sink cabinet. A cabinet width of 60cm is ideal for sinks with a main and additional bowl. Countless designs, e.g. for corners or narrow sink cabinets and cabinets in front of a window offer plenty of alternatives for maximising the available space.

**Ergonomics and functionality make life easier.** Make light work of washing up and food preparation with a BLANCO sink. Opt for single, multiple or partitioned bowls. Choose between bowl only versions or bowl with drainer options – all with clever accessories and all designed to make life in the kitchen easier.

**Add style with material and colour.** BLANCO always offers plenty of inspiration and the opportunity to express yourself through colour options, material choices and finishes to suit your taste and your lifestyle. Whether you choose classic Stainless Steel, the beautifully tactile SILGRANIT® in up to eleven colours or high quality Ceramic in four colour options.

A corner solution for perfect utilisation of the available space.

The cutting board and multifunctional colander can easily be moved.

Perfect synergy: super durable Stainless Steel Durinox® bowl paired with a brushed inset edge to match the tap.

Time spent in the kitchen:

-  **60% Sink**
-  **25% Hob**
-  **15% Rest**

**On average, 60% of the time spent in the kitchen is spent at the sink.**

Since the kitchen sink and tap serve as the base for some of the most important functions of everyday life, and we spend a lot of our time using them, it's important to make the right choice.

The kitchen is the hub of the home and the sink is at its heart. The combination of sink, tap, waste management systems and clever accessories create what we like to call a 'sink centre'.

From food and drink preparation, washing up and cleaning, to flower arranging and bathing babies – you need to find that perfect balance between practicality and aesthetics. With over 90 years of experience, the experts at BLANCO have created solutions for all spaces, designs for all tastes and innovations in materials and finishes that perform beautifully.

**Cleaning made easy.** Top-quality materials and strong, user-friendly BLANCO surfaces minimise the effort required for cleaning. Dirt and water find it hard to remain on the surface, helping to prevent against limescale and marks. Common household cleaning products make light work of keeping your sink looking beautiful.

**The right installation method for every requirement.** Undermount bowl installation provides a flawless look. Highly practical inset products offer flexibility while our tailor-made STEELART® worktops with integrated bowls present precision and expertise. Coordinated solutions for life in the kitchen means you can achieve something extraordinary.

**Convenience in a system.** The perfect synergy between individual elements is what turns a sink into a functional sink centre. This is achieved with the addition of high quality taps and waste systems along with matching accessories. BLANCO are proud to be able to offer sink centre solutions, whatever your style or budget, that will prove to be a true investment in your home and your lifestyle.

SILGRANIT® PuraDur®: outstanding ease of care.

Award winning mixer taps from BLANCO.

Even the waste separation is perfectly organised – thanks to SELECT, BLANCO's waste management system.

BLANCO sinks and taps have been recognised by many top industry and design awards.

Sink: CRONOS XL 8-IF, Stainless Steel  
Tap: BLANCOCULINA-S, Stainless Steel

Premium kitchen sinks and taps by **BLANCO**. Designed and engineered in Germany, our products are globally renowned for exceptional quality, first-class aesthetics, functional superiority and a versatile range to suit all kitchen styles. For more than 90 years we have continued to develop our products to enhance changing lifestyles, always delivering the best in design and innovation.

The recognition we receive, from industry marks of excellence and awards from design associations, are testament to our passion for quality and design.

ETAGON 700-U

SOLENTA-S Senso, Stainless finish UltraResist®

**BLANCO**  
STEELART

## An elegant play of materials.

BLANCO Durinox® bespoke worktops with integrated SILGRANIT® PuraDur® undermount bowl.

**Custom worktop:** Durinox® Stainless Steel with SolidEdge design  
**Integrated bowl:** SUBLINE 500-U, SILGRANIT® PuraDur®, Anthracite  
**Tap:** LINUS-S, SILGRANIT® look, Anthracite

## Discover the art of combining high-quality materials in style with STEELART®.

The latest arrival is a custom-made Stainless Steel worktop in Durinox® finish with a harmoniously integrated flush undermount bowl from the SUBLINE range in SILGRANIT® PuraDur®.

The elegant bowl, featuring strong lines and a silky, stone-like surface, flows almost seamlessly into the worktop. The dark anthracite SUBLINE bowl appears in contrast to the velvety-matt Stainless Steel surface of the worktop. This unique combination of materials is striking and exclusive to BLANCO.

The SUBLINE bowl, specially adapted for integration into STEELART® worktops, is designed for installation into the 60cm cabinet.

CRONOS XL 6.  
Eye-catching. Sophisticated. Stylish.

**New! Traditional Farmhouse reimaged.**

- Exclusive Stainless Steel sink in minimalistic design
- Eye-catching styling with characteristic apron front in satin matt Stainless Steel
- Height of apron front can be adjusted to match your kitchen units as an additional service on request
- Large integrated CLARON XL single bowl
- InFino® strainer – elegantly integrated
- For undermount, installation from above or flushmounted installation

CRONOS XL 6

CRONOS XL 8

An exciting yet harmonious mix of materials: Anthracite bowl in SILGRANIT® PuraDur® combined with the velvety-matt Durinox® Stainless Steel surface.

The SUBLINE bowl is mounted almost flush with the worktop to create a precision detail.

# BLANCO

## STEELART

**BLANCO STEELART® presents a unique material innovation in the form of BLANCO Durinox®.** With its pure Stainless Steel surface, finished using state-of-the-art technology, Durinox® is visually beautiful, tactile and durable. Compared to conventional Stainless Steel, the surface is more resistant to scratches and less susceptible to fingerprints making it easier to care for and clean.

CLARON 500-IF/A, Stainless Steel Durinox®

### The benefits of Durinox® at a glance:

- Unique material innovation: specially finished surface with velvety-matt look and homogeneous structure
- Enhanced scratch-resistance: over twice as hard as conventional Stainless Steel surfaces
- Less impervious to fingerprints than conventional Stainless Steel surfaces
- Easy to care for and clean

The velvety-matt Durinox® surface is a real all-rounder: more scratch-resistant, easy-care and easy to clean.

The new CLARON Durinox® bowl models with integrated tap ledge are all equipped with the intuitive PushControl drain remote control and the InFino® plug and strainer system.

Perfect design and function.  
CLARON bowl with Durinox® surface.

**Bowl:** CLARON 500-IF/A and 700-IF/A, Stainless Steel Durinox®  
**Tap:** PANERA-S, Brushed Stainless Steel

The elegant CLARON Durinox® bowl also comes in IF-flat rim and undermount versions.

The CLARON IF/A features a Durinox® bowl with a rim and tap ledge finished in brushed Stainless Steel. Ideal to match our range of Stainless Steel taps.

Three is the magic number.  
One bowl, two rails, three levels.

Soak the stubborn dirt from potatoes whilst letting those freshly picked and rinsed herbs drain as you prepare the veg.

Larger format bowls open up even more options to prepare food with ease, keeping the whole process contained.

**Sink:** ETAGON 500-U, SILGRANIT® PuraDur®, Tartufo  
**Tap:** PANERA-S, Brushed Stainless Steel  
**Accessory:** Stainless Steel ETAGON rails (included)

## Three levels, three materials and three installation methods.

Cleverly designed bowls in a range of installation methods, an integrated ledge and ingenious rails that create a new working level, and super-practical BLANCO accessories. Three things that will turn your kitchen sink into a space-saving, time-saving, creative hub.

ETAGON: The ultra-versatile range of three-level sinks.

### Multiple working levels:

1. Bowl level – for rinsing, washing and general use
2. Ledge and rail level – for draining, drying and soaking
3. Surface level – for preparation and serving

### Quality material choices:

1. Stainless Steel
2. SILGRANIT® PuraDur®
3. Ceramic PuraPlus®

### Installation options:

1. Undermount – fitted below your work surface
2. Inset – mounted, with a rim, into the worktop
3. Inset flush – set into the worktop (Stainless Steel only)

Rinse, drain and prepare food or wash, soak and dry dirty dishes at the same time. Keep the water and clutter contained within the three levels of the sink space, thanks to ingenious accessories, the innovative rails and integrated ledge designed into ETAGON sinks.

Finished the task at hand? Hide the colander away under the thin-profile food board which sits perfectly across the bowl.

Washing up made easy with the addition of a mobile drainer and the versatile combination ETAGON ledge and rails.

Brilliant:  
the three-tier  
sink system.  
BLANCO ETAGON.

**Sink:** ETAGON 700-U, SILGRANIT® PuraDur®, Anthracite  
**Tap:** BLANCOCULINA-S, Stainless Steel finish  
**Accessory:** Stainless Steel ETAGON rails (included)

## The space-saving, time-saving, creative hub.

The multi-level system creates convenience through clever and unique functionality. ETAGON extends the simple bowl with a ledge detail, a pair of rails and a host of perfectly matched accessories. The ETAGON bowl design has all the versatility of a sink with a drainer, yet requires much less space.

The integrated ledge combined with the specially developed ETAGON rails creates three working levels in and around the modern bowl. Placed in the centre, the rails will accommodate items such as pans and steam cooking containers. When the chopping board is placed on top, vegetables can be handled while other ingredients are rinsed in the bowl. Baking trays can be easily washed in the large individual bowls.

Baking trays can be easily soaked and cleaned in the spacious individual bowl.

The heat-resistant ETAGON rails can also be used as a trivet.

Perfect for placing kitchen utensils, e.g. lids and bottles.

**Sink:** ETAGON 500-IF/A, Stainless Steel  
**Tap:** PANERA-S, Brushed Stainless Steel  
**Accessory:** Stainless Steel ETAGON rails (included)

**Your choice of colour and material.** The wonderfully versatile ETAGON range comes in an equally diverse range of material and colour options.

Choose from classic Stainless Steel, four colours of Ceramic, ten colours of SILGRANIT® PuraDur® and now the inset mounted ETAGON is available in our brand new Concrete-style stone composite.

**An installation method to suit you.** The hugely practical inset style sinks are built with a frame that sits on top of the work surface.

Many Stainless Steel ETAGON sinks can also be flushmount, this is where the frame is inset into the surface to sit flush with the worktop – also available with or without a tap ledge at the back.

The third option is the increasingly popular and visually low-impact undermount installation method.

ETAGON SILGRANIT® PuraDur® comes in ten colours and now the inset sink is also available in our new Concrete-style.

Undermount options are perfect for use with worktops in natural or composite stone materials, ceramic, metal or glass.

Your style. Your colour.  
BLANCO SITY XL 6 S and VIU-S.

The perfect kitchen work area – with Orange accessories.

The flexible SITYPad always does a good job – here in Lemon as an accent colour.

**Sink:** SITY XL 6 S, SILGRANIT® PuraDur® White, SITYPad and SITYBox Kiwi  
**Tap:** VIU-S, Chrome/Kiwi

The SITY and VIU-S concept, with matching accessories, make it easy to add individual touches to any kitchen. Match or contrast with your own interior style. The SITY XL 6 S is notable for its pedestal-like drainer and high-volume XL bowl. The system allows you to create different colour combinations with the attractive range of accessories.

The flexible SITYPad chopping board dovetails perfectly with the lines of the drainer, while the attachable SITYBox caddy is ideal for utensils. The fresh colours of the accessories provide striking accents: choose between Lemon, Kiwi, Orange or Lava Grey to suit your taste. The SITYPad and SITYBox, in your choice of colour, are included as a set with the sink.

Combining these with the VIU-S mixer tap completes the look. This compact, modern model has a flexible hose with a cover that comes in four colours, to match the accessories. The mixer tap is safe and easy to use, with a hook-on spray, side-operated mixer lever and an energy-saving cold-start function.

**Combination examples**

**NEW**

SITY XL 6 S, SILGRANIT® PuraDur®, White with accessories and VIU-S in Lava Grey

**NEW**

SITY XL 6 S, SILGRANIT® PuraDur®, Alumetallic with accessories and VIU-S in Orange

**NEW**

SITY XL 6 S, SILGRANIT® PuraDur®, Rock Grey with accessories and VIU-S in Kiwi

**NEW**

SITY XL 6 S, SILGRANIT® PuraDur®, Anthracite with accessories and VIU-S in Lemon

With its flexible spray hose, VIU-S offers plenty of freedom of movement.

**NEW**

VIU-S, incl. set with changeable hose covers in four accent colours: Chrome/Lava Grey, Chrome/Orange, Chrome/Lemon, Chrome/Kiwi

A thoroughly modern  
country classic.

FARON XL 6 S SILGRANIT® PuraDur®.

The fine double grooves enhance the Farmhouse style.

The chopping board can be placed either on the drainer or the bowl.

**Sink:** FARON XL 6 S, SILGRANIT® PuraDur®, White  
**Tap:** LIVIA-S, Manganese and pop-up strainer control  
**Accessory:** Solid Ash food board with decorative elements

**The FARON XL 6 S sink offers especially distinctive charm.** Developed in line with current furnishing trends to reflect the modern Farmhouse style, the shape of this SILGRANIT® model reinterprets traditional style elements. The characteristic double grooves are reminiscent of panelling yet the sink still has a light, linear appearance. The drainer and mixer tap ledge are harmoniously matched. A delicate profile edge emphasises this look and can be found both at the edge of the sink and on the solid Ash food board.

The FARON XL 6 S features an ample XL bowl and high-quality fittings such as the C-overflow™ and InFino® strainer system. The optionally available food board in solid Ash can also be ordered with pyrographed ornamental decor. This distinctive accessory adds an extra touch of style to the kitchen as well as providing an excellent food preparation surface. The food preparation board can be positioned across the entire sink, transversely in the bowl or across the draining area. Made of easy-care SILGRANIT® PuraDur®, the FARON XL 6 S sink is available in all the colours of the CombiColours range.

Stylish combinations with wood, tiles or other natural materials create an inviting and also contemporary Farmhouse atmosphere in any kitchen – even in the city.

## Concrete-style: distinctive and on-trend.

Our new SILGRANIT® PuraDur®  
colour simulates the unique texture  
and appearance of Concrete.

The METRA sink range is modern, versatile, popular and usable in all sorts of spaces. It is just as striking in Concrete-style, with a large amount of surface on display – the METRA is a perfect platform to showcase this new SILGRANIT® finish.

The combination of different materials signal 'industrial chic'. Expressive wood, black metal finishes, steel and Concrete elements create a unique composition, complemented by the PLEON bowl range, now available in industrial Concrete-style.

The selected models from the ETAGON range fit perfectly into natural, subtle Scandinavian designs that combine pale wood and Concrete. This multi-functional range and the unique Concrete-style finish are also ideal for smaller kitchens.

**Super durable SILGRANIT® PuraDur® is now also available in a unique Concrete-style.** Whether you are creating a modern Scandinavian, urban-style or an industrial inspired space – our new Concrete-style sinks fit the bill.

The authentic Concrete shade provides a constant source of fascination. Its distinctive appearance seems to change as you move around it – the matt, polished and satin areas catch and refract the light beautifully.

Every sink is unique, and no colour gradient is exactly the same. A contemporary, standalone piece that dovetails perfectly with architectural concepts and modern spacial design.

Concrete-style SILGRANIT® PuraDur® combines ease of care and robust material properties with a striking appearance and wonderfully tactile feel.

Classically beautiful.  
Beautifully versatile.  
BLANCO Ceramic sinks.

Sink: VILLAE® Farmhouse Single, Ceramic, Crystal White  
Tap: VICUS® Bridge twin lever, Brushed Brass

The AXON II 6 S features a large drainer and multiple bowls in practical, and wonderfully tactile, Ceramic PuraPlus®.

Ceramic sinks can be undermount to complement or contrast your choice of worktop. Here the SUBLINE 500-U is a real feature against the dark natural stone.

**The appeal of Ceramic sinks and bowls lays in their natural look.** A tactile, deep glaze finish creates a pleasant work space while modern production techniques allow for contemporary shapes with slim rims or small radius designs. Our Farmhouse-style ranges offer particularly beautiful examples of traditional design and styling in Crystal White, working in synergy with modern Ceramic manufacturing methods.

Ceramic can also be contemporary, and even ultra-modern, as our ranges demonstrate. You can couple the beauty of Ceramic with the modern aesthetics of kitchen design, installation methods and the practical requirements of modern life. Don't forget colour! Many of our more modern Ceramic sink designs are available in four stunning colour choices.

### Ceramic PuraPlus® Colours

Crystal White

Magnolia

Black

Basalt

Please note, not all products are available in all four colours – please check product listings.

BLANCODELTA is a successful corner solution.

The ETAGON range offers a huge choice of materials and installation methods, including ceramic in four colours in both inset or undermount options.

**Welcome to the future of kitchen mixer taps!** BLANCO is entering a new era with an innovative range of smart mixer taps. The smart product range is geared towards highly specific uses within the kitchen. To put it another way, each of the clever mixer taps helps to solve a different everyday problem.

The EVOL-S Volume is impressive because of its exact measuring function, ensuring accurate water volume at the touch of a button. With integrated limescale-reducing filter, the FONTAS II Filter, TRIMA Filter and FILTRA Pro promise superior water quality and are quick to impress those who appreciate good taste. And then there's the SOLENTA-S Senso with its integrated motion sensor for touch-free water flow, which makes operating the mixer tap easy even when your hands are full.

Modern, future-proof mixer taps that provide individual solutions for everyday use in the kitchen. Clever and distinctive examples of outstanding quality that demand a place in your kitchen. It doesn't get smarter than that.

Volume

**NEW**

**EVOL-S Volume**

Do you want just the amount of water that you need? The integrated measuring function makes it easy.

# BLANCO InFino®

Perfectly integrated strainer and waste system.

InFino® plug and strainer system

**Extremely easy to clean** thanks to the almost flush integration with no rims or edges.

**Perfect ease of care.** InFino® can be dismantled into only two components for easy cleaning: the plug in the outlet and the strainer.

**Unique control.** The strainer is always central and always remains flush whether opened or closed.

**InFino® is the innovative strainer and waste system** for BLANCO sinks. The stylish and contemporary design offers a streamlined look, while the impressive functionality and ease of control of the InFino® strainer sets new standards.

**The superior strainer:**

- Elegant design
- Flushmount design
- Unique intuitive control concept; optionally with remote control
- Service-friendly construction thanks to fast and simple valve installation

**Intuitive control concept.** In the manual version, the outflow is opened and closed by turning the InFino® strainer to the right or left. In contrast to other up-and-down waste options, this does not change the position of the strainer and the perfect looks of the sink centre are always maintained as it stays flush within the base of the bowl.

Sinks with the new InFino® strainer system are shown with the following icons to suite the type of drain system.

InFino® with remote control

InFino® manual

InFino® and SILGRANIT® PuraDur® – unique flush feel.

**Optionally with pop-up remote control.** The remote controlled version may be fitted at any time.

InFino® and Ceramic – expression of exclusivity.

## Materials and finishes to fit your lifestyle.

You have your own unique vision of what makes the perfect kitchen. How you use your sink is important when deciding which material is right for your kitchen because each precision-engineered material has individual characteristics and benefits. Our range covers everything from the latest contemporary trends to classic lines, so all you have to do is choose the one that best complements your cooking style and personality.

### Stainless Steel

Stainless Steel differs from most materials in that it can be integrated into almost any kitchen environment. Its most important properties:

- Timeless classic aesthetics
- Does not rust
- Completely heat resistant
- Hygienic and suitable for food preparation
- Stain and acid resistant
- Easy to care for

BLANCO uses only the highest quality 18/10 Stainless Steel to meet the most exacting requirements.

### SILGRANIT® PuraDur®

Over 30 years ago, BLANCO began manufacturing a stone composite material that today, is the world's leading coloured kitchen sink choice.

The patented SILGRANIT® material has been refined and developed over the years and is exclusive to BLANCO. Thanks to its premium natural components, SILGRANIT® PuraDur® offers a level of resistance that has not been available in composite sinks before.

- Easy to clean thanks to the unique finish of SILGRANIT® PuraDur®
- Scratch, heat and impact resistant
- Hygienic surface is suitable for food preparation
- Superior durability and a smooth surface with the look and feel of stone
- Available in attractive colour options

### BLANCO Ceramic

Sinks made of BLANCO Ceramic create a special homely atmosphere.

Their attractive appearance and glazed surface finish blend with both traditional and modern kitchens.

Modern production methods and special manufacturing techniques together with the skills of our craftspeople ensures that our quality remains constant. Care throughout the production process helps to produce a sink which will maintain its appearance for years to come. Its most important properties:

- Easy to care for
- Stain and acid resistant
- Colour safe
- Completely heat resistant
- Hygienic and suitable for food preparation

# More than mere installation.

Discover the individual installation options courtesy of BLANCO.

## Installation from above

Classic installation from above with a conventional profiled rim that offers a wealth of options.

## IF flat rim

Elegant, modern look thanks to the almost flush-fit appearance. There are two installation options for each sink model: top mounted and flushmounted.

## Undermount

Smooth, continuous installation of bowls and sinks for a harmonious overall impression.

## Flush-mount installation

Visual harmony between sink and worktop with no irritating edges – functional and contemporary.

## In-between module

Modular installation between two separate work surfaces.

# Easy to clean, protect and maintain.

## Tips for the right care.

**BLANCO sinks, with innovative functions and materials,** go a long way toward making life in the kitchen easier. After all, the sink plays a major role in every home, it's where we spend 60% of our kitchen time.

Your kitchen sink frequently comes into contact with food, chemicals and a variety of liquids, so maintenance is important. All sink materials require a level of ongoing care to ensure they continue to look great, are safe and bacteria free – even if they contain anti-bacterial qualities.

### Stainless Steel

Stainless Steel, by its nature, is not completely impervious to scratches in general use. For a short period after installation, some usage marks are unavoidable. However, over time and regular care, the surface appearance will settle into the lustrous Stainless Steel finish you expect.

- Daily cleaning will ensure dirt simply wipes off with a damp soft cloth or sponge
- Ensure you dry the surface with a microfibre cloth to avoid limescale build up and prevent against stains and marks
- Our tip against stubborn limescale: a solution of 20% vinegar, 80% water or water with a little lemon juice

### SILGRANIT® PuraDur®

Our stone composite sinks contain 80% quartz sand, which is the hardest element of granite. Thanks to these hard-wearing properties and the Hygiene+Plus antibacterial shield coating, SILGRANIT® PuraDur® sinks are truly easy to care for. However some maintenance is still advised to ensure lasting quality and appearance.

- Regular wiping will ensure dirt simply wipes off with a damp soft cloth or sponge
- Light limescale marks can be removed with acetic acid or other commercially available products that are intended for this material
- Discolouration and staining are caused by limescale that absorbs liquids such as coffee, tea, or red wine after drying – in most cases, these marks may be removed with the coarse side of a washing-up sponge

### Ceramic

Ceramic is a natural product, created in a series of special processes that incorporate decades of our team's experience. BLANCO Ceramic is naturally easy-care due to the particularly hard, non-porous, glazed surface. This is especially true for our PuraPlus® finish, a special seal that smooths and refines the surface of the glaze, further preventing limescale, staining and standing water.

The ultra-resistant properties and characteristics of BLANCO Ceramic with PuraPlus® prevents dirt from penetrating, so usually a simple wipe is all it takes to clean it. Water and a little washing-up liquid are all that is required. A soft microfibre cloth will ensure that the surface is irresistibly lovely again. A mild vinegar-based solution or all-purpose cleaner can also be used.

# Sinks and taps explained.

## Sinks

### Cabinet width

The cabinet width measurement denotes the measurement (mm) which the sink bowl(s) need to fit into.

### Sink style options

**Inset:** The frame of an inset sink sits on top of the work surface. These sinks are compatible with any work surface, including laminate worktops.

**Undermount:** An undermount sink is installed underneath the worktop, only compatible with solid surface worktops such as granite or solid wood.

**Belfast:** Belfast sinks are installed either 'dropped-on' to a purpose-built cabinet or by using installation brackets.

### Inset sink profiles

BLANCO sinks come with a range of different profiles.

**Standard:** Edge is rolled over to meet the worktop.

**IF and IF/A:** Unique 1mm flat edge profile for inset and flushmount installation.

**IFU:** Suitable for inset, flushmount and undermount.

### Bowl configuration

Ensure you choose the correct sink configuration for your kitchen.

**LHB, RHB and UNI (Universal):**

Indicates whether an inset sink is available with a Left Hand Bowl (LHB).

Or Right Hand Bowl (RHB).

UNI (Universal) indicates an inset sink suitable for both left and right configurations.

If the sink does not have a drainer, the handing refers to the Main Bowl.

## Taps

### Water pressure

BLANCO has a range of taps suitable for low and high pressure systems.

BLANCO considers taps 0.3 bar and below as low pressure.

### Features

**Aerator:** Mixes air into the flow of water to give a champagne-like flow. Some taps are fitted with a flow straightener; however, some of our taps are fitted with an aerator which are highlighted by this icon.

**Pull-Out Spray:** Features a pull-out spray, useful for directional rinsing.

**Colour options**

**Dual Flow**

**Recommended solid work surface worktop or SILGRANIT® sink:**

Alternatively with the use of a tap stabilising bracket, code: BL450775 or BL467720.

# Classic. Timeless. Beautiful.

Stainless Steel sinks and bowls.

Sink: ANDANO 340/180-IF, Stainless Steel  
Tap: CARENA-S, Chrome  
Accessory: Colander Stainless Steel

BLANCO Stainless Steel – with over 90 years' experience in kitchen technology, design and manufacturing, BLANCO offers the ultimate in Stainless Steel quality and craftsmanship. A Stainless Steel sink is classic and timeless, and integrates beautifully in any kitchen environment.

Stainless Steel has a natural appeal with excellent characteristics that make it the perfect material for kitchen sinks.

However, not all Stainless Steel is really Stainless Steel. BLANCO only uses the highest quality Stainless Steel that is selected in accordance with specific criteria and is subject to strict quality checks.

The results are first-class BLANCO Stainless Steel sinks that meet the highest requirements – for material, functionality and design. BLANCO Stainless Steel sinks are made to last a lifetime.

**Quality**  
makes the  
difference.

## BLANCO expertise. Functionality engineered.

**Quality and beauty**  
BLANCO sinks are made from superior quality Stainless Steel with 18/10 chrome-nickel content. BLANCO Stainless Steel sinks will keep their brilliance and value for decades.

**Durability**  
Stainless Steel is impervious to water stains and calcium deposits and is easy to maintain. It is nonporous, rust, stain and heat resistant.

**Design**  
BLANCO's Stainless Steel selection offers a wealth of design options. Rounded or tight corners, different bowl depths, sink shapes and configurations – you can discover them all.

**Accessories**  
Accessories are offered with many BLANCO Stainless Steel sink models for the ultimate experience and practicality in your kitchen.

### Sink style options

**IF and IF/A:** Unique 1mm flat edge profile.

**IF:** The 1mm edge of the sink sits flat on the worktop.

**IFU:** Suitable for both inset and undermount installation.

**Inset:** Frame sits on top of work surface. These sinks are compatible with any work surface, including laminate worktops.

**Undermount:** Installed underneath the worktop. Only compatible with solid surface worktops such as granite or solid wood.

**Belfast:** Belfast sinks are installed either 'dropped-on' to a purpose-built cabinet or by using installation brackets.

### InFino® strainer

Sinks with the InFino® strainer systems are shown with the following icons to suit the type of drain system.

InFino® strainer plus remote control.

# Beauty, strength, durability. BLANCO SILGRANIT® PuraDur®.

Sink: BLANCO AXIA III XL 6 S, SILGRANIT® PuraDur®, White  
Tap: BLANCO CARENA-S Vario, Chrome/White  
Accessory: Bridging Ash wood compound food board

## Evolution of material

SILGRANIT® – the material evolution and legacy continues. Over 30 years ago, BLANCO began SILGRANIT®'s development and manufacturing. Today, SILGRANIT® PuraDur® is the world's leading coloured kitchen sink choice. SILGRANIT® PuraDur® is a patented material made of (up to 80%) granite that combines the textural beauty of nature with a smooth look and feel. Its strength and durability are achieved thanks to high-quality acrylic bonds. The non-porous surface with its repellent nature does not allow stains or acids to penetrate inside the sink's surface.

SILGRANIT® PuraDur® offers exceptional resistance to scratches, heat and impact allowing all the heavy kitchen work to be done right at your sink. The material can withstand up to 280°C, this exceeds common boiling, baking or broiling temperature levels. It also endures extreme temperature fluctuations between hot and cold. Furthermore, SILGRANIT® PuraDur® is hygienic and food friendly – the repellent surface features the patented Hygienic+Plus protection formula that does not absorb bacteria or odours, and reduces bacteria growth by up to 98% to ensure the product beauty is preserved, SILGRANIT® PuraDur® material is also non-fading.

### Easy-care

Stains and signs of use can be removed easily with a scouring sponge and water.

### Scratch-resistant

Extremely strong and scratch-proof. SILGRANIT® PuraDur® is not damaged by the normal use of knives.

### Heat-resistant

Sinks made of SILGRANIT® PuraDur® are heat-resistant to 280°C.

### Impact-resistant

The tremendous impact resistance protects the sink against damage, e.g. by a falling saucepan.

### Hygienic

Hygiene+Plus is a shield against dirt and bacteria, and makes cleaning easier.

### Safe for food use

All kinds of foods can be prepared directly on the SILGRANIT® PuraDur® sink.

### Acid-resistant

SILGRANIT® PuraDur® is resistant to acidic household cleaning products and foods.

### Non-fading

The colour also remains unchanged even in direct sunlight.

### Pleasantly natural

The silky-smooth surface and very finely-pored closed surface create a soft stone-like character that is wonderful to the touch.

 Inset installation

The loveliest combination  
of nature and design.

BLANCO Ceramic.

Sink: BELFAST, Ceramic, Crystal White  
Tap: VICUS® Bridge twin lever, Chrome

Sinks and bowls made of BLANCO Ceramic create a warm, homely atmosphere. They are stylish and appealing with their flowing lines and glazed surfaces.

BLANCO Ceramic blends perfectly with both traditional kitchens as well as modern designs – either to provide a contrast or to match existing colours and shapes, whatever your preference.

#### Ceramic

Basalt

Black

Crystal White

Magnolia

**Unbeatably easy to clean**  
 Due to its smooth surface, BLANCO Ceramic is naturally easy to clean, and little effort is required.

**Scratch and cut-proof**  
 Thanks to the strong, hard surface, using the sink never leaves any marks (except when Ceramic knives are used).

**PuraPlus® coating**  
 The PuraPlus® coating makes the surface even easier to clean. Dirt finds it almost impossible to adhere to the surface.

**Non-fading**  
 The colours of BLANCO Ceramic products never change, even in direct sunlight, but retain their original beauty for many years to come.

**Heat and cold-resistant**  
 BLANCO Ceramic sinks are fired at over 1200°C, so hot pots and pans of up to 280°C can safely be placed in or on them.

**High blow and impact-resistant**  
 BLANCO Ceramic is a strong, dense material that can easily cope with the usual domestic sink activities.

**Acid-resistant**  
 Whether vinegar, lemon juice or beetroot, standard domestic acids, lyes and other substances leave no traces and cannot cause any damage.

**Hygienic and suitable for food preparation**  
 The surface is hygienic and neutral in taste and odour, which has been confirmed in tests by the ISEGA Institute.

**Certified quality**  
 Regular voluntary quality tests by the LGA confirm the high standards that apply to the material and design.

The kitchen tap as the focal point.  
The sink and tap, perfectly matched.

When it comes to buying a kitchen tap, you should never compromise.

What counts above all else is quality. For 90 years now, BLANCO has been at home in the kitchen, developing versatile sinks, sink accessories, mixer taps and waste systems. Perfecting solutions to make life run a little more smoothly. The humble kitchen tap is anything but humble in the modern household. From smart solutions, boiling water and filter taps through to stunning Stainless Steel taps with spray functions – there is a tap to suit your life, your style and your space.

The perfect finishing touch in every style.

### Smart

Innovation, style and functionality are key in the BLANCO Smart Taps range. From helping you measure water direct from the tap to an auto sensor to turn it on and off, our smart range has it all.

### Semi-professional

Inspired by taps used in professional, commercial kitchens, semi-pros feature special details such as pressure sprayers, flexible spring coils and handspray holders.

### Contemporary

Modern, minimalistic design, through to current styles and some classic kitchen taps. Full of features and plenty of options, our tap range has something for everyones tastes – many boasting pullout sprayheads, as seen in the stunning PANERA.

### Traditional

Our Traditional range introduces a modern twist to a classic style tap. These complement our sinks perfectly with a variety of finishes and functionality.

## Tap pressures – gravity systems.

Maximum/minimum pressure requirements for average flow rates are quoted in bar. Where 'head' is indicated (vertical height from the tap to the underside of the cold water storage tank) use as an approximate guide only. The conversion to 'head' is based on the assumption that the tap is fitted directly below the storage tank. Long pipe runs across the property from storage to tap may result in reduced pressure and poor hot water performance. Where minimum pressure is quoted, minimum performance should be expected, for optimum flow rates greater pressure will always be an advantage.

Superbly measured.  
Superbly precise.  
Superb idea.

Precisely the right amount of  
water with the EVOL-S Volume.

Tap: EVOL-S Volume, Stainless finish UltraResist®

Use the scaling wheel to set the exact amount of water that you want to come out of the tap, in small increments from 100ml to 5 litres.

Intuitive touch control: Tap on the left-hand lever and the set amount of water comes out of the mixer tap.

The pull-out spout gives you more freedom of movement around the sink.

## Perfection is everything working precisely.

Like the EVOL-S Volume from BLANCO. Thanks to its integrated measuring function, the EVOL-S Volume always provides exactly the amount of water you need. The volume of water can be custom-set using the precise rotary control bezel and intuitive touch operation. Whether you're following a recipe, making a healthy juice or filling the kettle, the EVOL-S Volume from BLANCO is the perfect smart mixer tap for when you need a precise amount of water.

Another plus is that using a specific amount of water puts an end to unnecessary water waste, making this tap economical, environmentally friendly and highly practical. The new dynamic flow control system provides intelligent control of the water flow: the greater the amount of water you want, the more powerful the jet and the faster the water flow. This means no unnecessary waiting.

EVOL-S Volume is available in Chrome and Stainless finish UltraResist®, so that you have the perfect match for your sink. Simply superb.

**NEW**

**BLANCO EVOL-S Volume**  
Stainless finish UltraResist®  
Chrome

Superbly measured. Superbly precise. Superb pizza dough.

Perfect for pets: the precise measuring cup wheel allows you to custom-set the amount of water.

The EVOL-S Volume allows you to set the amount of water to exactly what you need.

Economical and environmentally friendly: no more water wastage thanks to exact water consumption.

When you need a smaller volume of water, you are likely to be using a smaller vessel – the EVOL reduces the flow rate – so no splash-back!

## Smart innovations, surprising features.

Filtered water.  
A better taste.  
The perfect solution.

This is where the Smart mixer taps, **FONTAS II Filter**, **FILTRA Pro** and **TRIMA Filter** come in. An integrated multi-stage filter purifies the water, reduces limescale and heavy metal content, and thus appreciably enhances the taste. BLANCO filter systems provide three options: warm, cold and filtered cold water.

Full hands.  
Running water.  
An inspired idea.

**SOLENTA-S Senso** with start-stop sensor technology. For when you have both hands full in the kitchen, whether you're mixing ingredients for a birthday cake or marinating the Sunday roast. And it's just then that you need some water. SOLENTA-S Senso from BLANCO has just the smart system to help, and is setting a new benchmark with its innovative sensor technology and start-stop function. The intelligent motion sensor activates and deactivates the water flow completely touch-free.

Ideal kitchen aids.  
BLANCO accessories  
make things easier for  
you and your kitchen  
more attractive.

**Floating Grid** – creates a work-level in the sink and can also be used as a countertop trivet.

## Accessories

**Multifunctional basket** made of Stainless Steel for versatile use.

Lay-on **drainer tray** made of quality plastic, particularly useful for single-bowl sinks.

Innovative **Top Rails** that have multiple uses from draining and rinsing platforms over the sink to heat-proof worktop protectors.

High-quality **glass chopping board** made of white safety glass.

Often it's the little things in life that make the biggest difference. For example, **fitting** a sink with **accessories** can make it even more **convenient** while also making it more attractive.

When preparing food, multifunctional accessories can help you save time and enable you to contain the mess created in the sink area.

For instance, you can acquire more space with a rack that is clamped inside the bowl. It also acts as a functional level, and makes an excellent trivet as well.

Innovative concepts and high-quality materials transform BLANCO sink centres into modern kitchen workplaces with no need to compromise.

Soap dispensers that match many of our tap ranges, integrate perfectly in the sink area. They are easy to fill from above, and can also be added to most sinks at a later date.

More information about our accessories is available at [www.blanco.co.uk/accessories](http://www.blanco.co.uk/accessories)

**Corner-Caddy** for food and dishes, but also a practical storage surface for washing-up utensils.

Positioned on the edge of the bowl, the **Top Rails** form a bridge over the sink that allows the user to work on two levels.

## BLANCO lighting solutions. Task, feature & accessories.

**The kitchen is the heart of every home**, and it is not uncommon for the modern kitchen to be a multifunctional room. It's obviously a place to cook and eat, but also to study, work, read and watch television. Choosing the right type of lighting needs to be considered at an early stage. The electrics have to be installed at the start of the project, before the plastering, decorating and fitting has taken place.

**Good kitchen lighting can help a modest kitchen make a statement**, whilst a larger contemporary kitchen looks stunning with your eye drawn to features through effective lighting. The key to a successful kitchen lighting scheme is to layer the different types of lighting according to use.

## Choose stylish kitchen lighting for your home.

### Task lighting

Utilising the latest technology. These lighting kits will illuminate working areas. Available in contemporary designs, with 'plug & play' connections. Available in two or three light kits.

### Feature lighting

Our bespoke offering can draw attention to specific objects, features or shapes in a room. Ideal for Island units, plinth lines or on the underside of the work surface.

### Finishing touches

Remote controls allow for the lighting to be zoned throughout the kitchen. Our four zone controller can independently switch or dim each area enabling task lighting to be dimmed to give the effect of mood lighting.

### Cool White

Cold and clinical. Ideal for a contemporary high gloss finish. 6000-6500k.

### Neutral White

Ideally placed between Cool & Warm. The 4000k Neutral White is becoming increasingly more popular.

### Warm White

Warm and homely. Ideal for wood or traditional Farmhouse style kitchens. 3000k.

Every kitchen, big or small, needs efficient task lighting. You will need this to ensure that food preparation and cooking takes place safely without shadows. BLANCO offer an extensive range in surface fitted or recessed LED lights utilising the latest generation of technology. The 'COB' (Chip On Board) LED lights give a uniform light with a wide beam angle and higher light levels. The 'High Definition' range offers conventional LED'S matched with an optical lens to maximise light output.

All of the kits offered by BLANCO come complete with a matched power supply and full instructions. All of the LED lights offer high light outputs with long life, cool running and minimal running costs. Most are available in Warm, Cool or Neutral White. Warm White LED'S give a soft orange/yellow light which mirrors a traditional tungsten or halogen light source. Cool White is colder and is particularly suitable to a modern high gloss design of kitchen. If you require something inbetween, Neutral White would be the perfect alternative.

Care must be given to the colour temperature of lights so they all match, for example the main ceiling lights, pendants or extractor hoods. The illustration shows the different effects of Warm, Cool & Neutral White on a wall.

## Task lighting.

Create an efficient working space with light.

Surface fitted COB cabinet lighting in **Cool White** (also available as recessed).

Surface fitted COB cabinet lighting in **Neutral White** (also available as recessed).

Surface fitted COB cabinet lighting in **Warm White** (also available as recessed).

Feature lighting.  
Create an impact.

Create a relaxing atmosphere with bespoke LED strip around the island.

Create an impact with an illuminated glass light box.

Add a soft ambience to your kitchen with plinth lighting.

**Feature lighting can draw attention to specific objects, features or shapes in a room. Careful placement of light can accentuate any object.**

Using our versatile bespoke self-adhesive tape can make a feature of island units. Used around the plinth line or on the underside of the work surface, it can give the illusion of the furniture floating. This can be used to mirror the effect on the rest of the kitchen furniture as well as on top of the cabinets as an effective 'wall-washer'.

The colour changing tape can be used in the same way with the ability to pre-set an endless array of colours with the remote. This can result in a stunning effect behind frosted glass doors.

Bespoke self-adhesive flexible LED strip (blue).

Bespoke self-adhesive flexible LED strip (green).

## BLANCO feature lighting

LED square plinth lights

LED round plinth lights

Micro disk LED plinth lights

LED shelf clip light

Glass light box

LED self-adhesive 'bespoke' tape

Ultra high output linkable LED strip lights

Ultra slimline under cabinet LED striplight

Drawer light

Add ambience with the simple clip-on shelf light.

The infra-red sensor switch can be used under cabinets or inside them to act as a sensor for internal lights.

A pull up socket solution is perfect for use with kitchen islands.

# Finishing touches.

Add those little extras for maximum impact.

**BLANCO offer a number of extras that can add those finishing touches to make all the difference.**

Remote dimming and switching, ideal for controlling different lighting zones within the kitchen, for example dimming your task lighting to create some ambience whilst eating and entertaining. Clever sensor switches that allow you to activate the lights with a swipe of the hand. Illuminated light shelves and light boxes can be added for extra feature lighting along with clip-on shelf lights that shine through the glass.

Finally our pop-up sockets are a neat solution to putting power sockets onto an island unit. The clever design incorporates three UK sockets and two USB charging points and neatly slots away when not in use.

Control your bespoke LED lighting strip with a single remote. It has on/off, high, low and medium presets. Plus a touch wheel dimmer control to make setting the mood quick and easy.

# BLANCO Induction and Ceramic hob range.

Designed to suit the way you cook.

Hob: Induction hob 7100W XL Flex Zone

**BLANCO hobs are designed and built with the well-established BLANCO quality in mind.** With contemporary designs and high quality materials our hobs add style and performance to any kitchen. Minimum joints and seams ensure there are fewer areas for grease to build up, making the hob easier to clean and ultimately more hygienic. All BLANCO hobs boast innovative features to make cooking safer and more enjoyable and they are rigorously tested to withstand many years of use, even in the busiest kitchens.

The induction hob provides the most efficient method of cooking, because with induction cooking a magnetic field instantly transforms your pan into the heat source.

Induction hobs are extremely energy efficient as they only heat up the base of the pan and its contents, saving money.

## Induction hob 11100W

780 x 520mm black glass induction hob with slider controls.

### Benefits you'll love

- Automatic saucepan recognition
- Automatic bridge functions enable cooking zones to be merged offering the ultimate in flexible working space
- Grill function, this sensor driven power level adaptation is specifically designed for the BLANCO cast iron grill plate (BH467834)
- Pause and recall function allowing you to put the hob in pause mode and recall all the settings with a single touch
- 3 keep warm levels 42°C perfect for melting chocolate. 70°C suitable for keeping soup warm and 94°C perfect for simmering water
- Slider controls
- Double boosters

BH467831

## Induction hob 7400W FLEX ZONE BH467827

590 x 520mm black glass induction hob with Flex Zone and LH bridge function.

## Induction hob 7100W FLEX ZONE BH467828

780 x 520mm black glass induction hob with Flex Zone and LH bridge function.

### Benefits you'll love

- 4 cooking zones and touch control
- Left hand bridge function
- 1 XL Flex Zone with auto sensor on the left side enabling pans of a different size to be used in this area
- My function gives the user the option of selecting and storing up to 4 settings of regular cooking modes such as the time/heat required to boil an egg
- Pause and recall function allowing you to put the hob in pause mode and recall all the settings with a single touch

BH467828

BH467827

### Induction hob 7400W

590 x 520mm touch control induction hob with bevelled edge.

#### Benefits you'll love

- 2 XL cooking zones enabling larger pans to be used
- 4 boosters which gives instant high heat with the touch of your finger
- 10 heat levels that are incredibly fast and responsive
- Child lock for extra safety
- Auto stop in case of inadvertent start or overflow and to avoid over heating

BH467826

### Induction hob 5600W\*

590 x 520mm 4 cooking zone black glass induction hob.

#### Benefits you'll love

- 9 heat levels for precision control
- 4 timers for greater convenience
- Child lock for added safety
- Auto stop in case of inadvertent start or overflow and to avoid over heating

\* NEW 13 amp version  
BH467822. Electronically  
limited load 3000 watts 

BH467822

BH467825

### Hi-Light Ceramic hob 6000W

590 x 520mm Frameless, 4 cooking zone black ceramic glass hob.

#### Benefits you'll love

- 9 heat levels for precision control
- 4 residual heat indicators and the added safety feature of a child lock
- Auto stop in case of inadvertent start or overflow and to avoid over heating

BH467823

# BLANCO Extractor hoods.

Hood: BLANCO by GUTMANN, CAMPO II Ceiling extractor

## Extractor hood buying guide.

### Cooker hood types

So what type of cooker hood would you like to have? There are several different cooker hood types on the market and a large number of models to choose from. Your choice depends on your taste and budget and also what is practical in your kitchen. Some of the options are:

### Wall mounted

This kind of cooker hood is often called a chimney hood, and as the name suggests the ducting looks like a chimney. This category includes the modern vertical types that take up less space than the horizontal chimney hoods. Both the horizontal and the vertical models come in all kinds of materials, shapes and sizes.

### Island and Pendant

Island hoods come in a variety of colours, shapes and sizes. They are attached to the ceiling and installed above a kitchen island. Please note that an island hood needs a higher air flow rate than a chimney hood in order to extract the same amount of air.

### Built-in

There are a few different types of built-in extractor;

#### Telescopic

The telescopic extractor hood is quite a discrete and invisible solution when not in use as the rest of the cooker hood is hidden in the kitchen cupboard. When in use you just pull out the front panel and the hood begins to extract the air.

#### Cupboard

A canopy hood is fully integrated into a kitchen cupboard situated above the hob or cooker and is completely invisible when not in use. In order to turn the hood on, you simply pull out what appears to be the front of a cupboard.

### Ceiling

This type of cooker hood is barely visible: it is integrated in the ceiling and only the front plate situated in your ceiling above your hob or cooker is visible. However, the ceiling cooker hood is not possible in every kitchen, the distance between the hob and your ceiling needs to be suitable, you must consider if the cooker hood can be integrated into your existing ceiling or if a bulk head needs to be created, and if ducting out (not recirculating) you need to plan for the ducting route as well.

### Downdraft

An integrated worktop cooker hood is invisible when not in use as it is hidden in the worktop. It can be situated either behind or next to your hobs. When you begin to cook you will press a button for the extractor to rise out of the worktop and after cooking the extractor will then sink back within the work top so it is invisible. The air flow capacity requirements are important as it needs to be able to suck the cooking odours into the extractor without it being positioned above the hob. The downdraft extractor is for those who cook on an island but enjoy an integrated and minimalist look.

Hood: BLANCO BW1171

## Chimney hoods

Chimney extractor hoods are easy to install and look stylish in any kitchen. The Blancoair range offers a wide selection of products, in both Stainless and glass, that will best suit your needs.

BW1171C60 / BW1171C90

- Stainless Steel chimney hood
- 2 x 3W LED lamps
- Outlet dia. 150mm-120mm
- Aluminium filters
- 3 speeds
- Push buttons
- Air movement 400m<sup>3</sup>/h

BW1142C60 / BW1142C90

- Pyramid hood
- Stainless Steel chimney hood
- 2 x 3W LED lamps
- Outlet dia. 150mm
- Aluminium filters
- 3 speeds
- Push buttons
- Air movement 400m<sup>3</sup>/h

BW1151C60 / BW1151C70 / BW1151C90

- Curved glass hood
- Stainless Steel/glass
- 2 x 1W LED lamps
- Outlet dia. 150mm
- Aluminium filter
- 3 speeds
- Push buttons
- Air movement 400m<sup>3</sup>/h

BW1161C60 / BW1161C90

- Flat glass hood
- Stainless Steel/glass
- 2 x 1W LED lamps
- Outlet dia. 150mm
- Aluminium filter
- 3 speeds
- Push buttons
- Air movement 400m<sup>3</sup>/h

## Chimney hoods

BW1235C60 / BW1235C90

- Angled glass feature hood
- Stainless Steel/glass
- 2 x 1.5W LED lamps
- Outlet dia. 150mm-120mm
- Aluminium filter
- 3 speeds + booster
- Soft touch control
- Timer
- Air movement 670m<sup>3</sup>/h

BW1225C60 / BW1225C90

- Slim-line chimney hood
- Stainless Steel/glass
- 2 x 1.5w LED lamps
- Outlet dia. 150mm-120mm
- Aluminium filters
- 3 speeds + booster
- Touch control
- Timer
- Air movement 750m<sup>3</sup>/h

## Island hoods

Island hoods are a popular choice for many modern kitchens. They are easily installed, central to the cooking area over the island unit.

BW1255C90

- Island hood
- Stainless Steel
- 4 x 1.5W LED lamps
- Outlet dia. 150mm-120mm
- Aluminium filters
- 3 speeds + booster
- Soft touch control
- Timer
- Air movement 750m<sup>3</sup>/h

Hood: BLANCO BW1255

Hood: BLANCO BW1196

## Telescopic hoods

There are a few different types of built-in hoods; telescopic, integrated and canopy hoods. The telescopic hoods disappear underneath the cabinet when not in use, however can extend outwards when operating to increase the catchment area.

BW1196C60 / BW1196C90

- Telescopic hood
- Front panel black glass
- 2 x 1.5W LED lights
- Outlet dia. 150mm
- Aluminium filters
- 3 speeds
- Air movement 740m<sup>3</sup>/h

## Integrated & Canopy hoods

Integrated hoods subtly fit behind a cabinet door therefore won't interrupt the current style of kitchen. Canopy hoods are designed to fit into the kitchen cabinet, so they don't impact on any design schemes.

BW1122

- Integrated hood
- Neutral finish
- 1 x 3w led lamp
- Top 120mm outlet
- Aluminium filters
- 3 speeds
- Slider control with auto shut off
- Air movement 200m<sup>3</sup>/h

BW1102

- Canopy hood
- Neutral finish
- 1 x 3W LED lamp
- Top 120mm outlet
- Acrylic filter
- 3 speeds
- Slider control
- Air movement 200m<sup>3</sup>/h

BW1106

- Canopy hood
- Stainless Steel
- 2 x 3W LED lamps
- Outlet dia. 150mm-120mm
- Aluminium filters
- 3 speeds + booster
- Timer
- Electronic control
- Air movement 750m<sup>3</sup>/h

## LIANO

- Cool White LED lighting
- Easy to use remote control
- Edge extraction
- Metal grease filter with magnetic band
- Air movement 910m<sup>3</sup>/h
- Sound pressure level 42-67dB
- Designed to be built-in

Hood: BLANCO by GUTMANN, LIANO

## Ceiling extractors

BLANCO hoods by GUTMANN offer stunning designs and the very best in perfectly functioning ventilation systems. Together with GUTMANN, we offer numerous installation methods, a range of fan options to meet the demands of various conditions. Our extensive range of exhaust air components can be optimised to meet individual requirements.

### CAMPO II

- Cool White LED lighting
- Easy to use remote control
- Exceptionally efficient edge extraction
- Condensation filter with magnetic band
- Air movement 910m<sup>3</sup>/h
- Sound pressure level 43-68dB

### CLARO

- Warm White LED lighting
- Easy to use remote control
- Edge extraction
- Condensation filter with magnetic band
- Air movement 910m<sup>3</sup>/h
- Sound pressure level 42-70dB

### CAPA

- Cool White LED lighting
- Full-surface extraction
- Easy to use remote control
- Metal grease filter with magnetic strip
- Black glass or White glass
- Carbon filters – regenerate in the oven
- Air movement 900m<sup>3</sup>/h
- Sound pressure level 42-72dB

### SOMBRA II

- Eight LED lighting zones
- Easy to use remote control
- Edge extraction
- Condensation filter with magnetic band
- Model with gas-assisted shock absorber
- Air movement 910m<sup>3</sup>/h
- Sound pressure level 42-70dB

## FONDA **NEW**

### Hob

- Four Induction cooking zones with individual touch slider controls
- Pause function and easy bridging
- Boost and double boost heating levels
- Individual timer function, three 'keep warm' temperatures, auto-pan recognition and child lock

### Downdraft

- Four-stage filtration system – grease, condensation, odour and micro-fine particles
- Only 8cm installation height
- Motor is positioned at back of cupboard which allows maximum usage of space
- 1000m<sup>3</sup>/hr (660m<sup>3</sup>/hr once all filter systems in place)
- Four power level trough ventilation
- Sound pressure level 52-65dB

Hood: BLANCO by GUTMANN, FONDA

Hood: BLANCO by GUTMANN, ABAJO

## ABAJO

### Hob

- Two Flexi Zone induction hobs for flexible cooking with larger pans
- Four induction hob slider controls with individual timer function
- Pause function and easy bridging
- Boost and twin boost heating levels
- Three 'keep warm' temperatures; 42°C, 70°C and 94°C

### Downdraft

- Multifunctional filter with high fat and evaporation filtration for ultimate extraction efficiency
- LED effect lighting to illuminate your hob
- Motor is positioned at back of cupboard which allows maximum usage of space
- 550m<sup>3</sup>/hr motor achieves air speed of 5m/s across cooking area
- Sound pressure level 62-66dB
