Lake View House
Rennie Drive,
Dartford
Kent, DA1 5FU

For over ten years Clearwater have been hand-crafting a stunning range of luxuriously designed, free-standing baths and coordinated basins. Our passion is to bring to life statement pieces that satisfy all tastes in both modern and traditional styling, across a wide range of sizes, including ones to fit the smallest of spaces. Our unique bath designs, alongside their coordinating basins, are available with a superb choice of luxury taps and mixers, including those in the new Elegante range.

MODERN	04
TRADITIONAL	38
BASINS & BRASSWARE	68

Teardrop Petite ClearStone bath shown with Elegante floor-standing bath spout and Elegante wall-mounted thermostatic valve.

All prices include VAT at 20%.

Our baths blend elegant design with perfect function to add beauty to your home. Whilst almost all baths are free-standing, our Patinato back-to-wall design offers a uniquely different concept, mixing fashionable styling with practical space saving installation. Equal design attention has been given to the coordinated range of Elegante mixers, available in both floor and wall-mounted options, some offering thermostatic control.

Begin your stunning bathroom design here.

ClearStone

This unique material allows us to craft baths with delicate rims and softer profiles. It has a gloss finish that is scratch-resistant and hardwearing. In the event of minor scratches or chips, Clearstone can be repaired.

The Formoso collection is also available in Matt finish.

Natural Stone

This material gives the bath a heavier and more solid appearance but with a soft, velvety-satin touch. Baths in Natural Stone come with an integrated overflow (except Lonio).

Wash basins

Several of our contemporary baths have a matching countertop washbasin for a coordinated look. Whilst our traditional designs can be paired with a roll-top washbasin mounted on a stainless steel stand.

Installation

To ensure your bath reaches you in perfect condition, the bath is individually boxed and is supplied within a unique synthetic bag that allows the installer to perfectly position it in your bathroom.

Traditional bath & basin taps

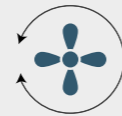

If you would like the black variation of tap handles, simply add BLA to the end of the code. Example code CL1 BLA.

For full details see our Burlington Brochure.

Quarter Turn

All our taps (except Kensington) come with the traditional screw down valves as standard. For 'Quarter Turn' simply add QT to the product code. Example code CL1 QT.

Traditional Screw Down

Quarter Turn

Standard

To turn your standard taps into taps with regent bases, simply add 'R' to your code. Example shown below AN1.

Regent

Regent tap bases have been designed so that the spouts are 30mm higher off the bath/basin than their equivalent name sake. Example shown below ANR1.

Anglesey

Add AN to the start of the code.

Claremont

Add CL to the start of the code.

Birkenhead

Add BI to the start of the code.

Kensington

Add KE to the start of the code (Quarter Turn Only).

Smartwaste

Our latest innovation is the Smartwaste, especially designed for any Clearwater bath that is supplied without an overflow. The Smartwaste incorporates self-opening technology, thereby replacing the need for a traditional overflow on the side of the bath. For regular use the waste is a standard click-clack mechanism, but as the water rises above the normal bathing level the waste opens to release excess water.

Once the water exceeds the overflow level, the waste opens fully and will discharge at up to 27 litres per minute, so removing the risk of flooding even if the taps have been left on. The discharge reduces and stops entirely once the water is back at normal bathing level. Smartwaste is easy to operate, simple to install and easy to maintain. Style with peace of mind.

Smartwaste is suitable for all Clearstone baths (except Balthazar which incorporates a built in overflow).
