

A close-up, angled view of the control panel of a Siemens studioLine oven. The panel is dark and sleek, featuring a large, circular, brushed metal rotary knob in the center. To the left of the knob are three buttons labeled 'on/off', 'menu', and a button with an 'i' icon and a key symbol. To the right of the knob are two buttons: one with a clock icon and another with a 'start/stop' label and a double arrow icon. The background is dark and out of focus, showing the oven's door and interior.

## Introducing studioLine

**studioLine**

Experience the elite studioLine range from Siemens.

The future moving in.

Siemens Home Appliances

# Experience the elite studioLine.

Modern distinctive design balances clean lines with state-of-the-art technology.

studioLine

Seamless design that complements every kitchen. studioLine is a complete kitchen range that aligns perfectly with one another. Ovens, compact appliances and warming drawers all line up thanks to coordinated front panels. Even our hobs and hoods adhere to the same design aesthetic to create a guaranteed design statement. Behind the look there is substance too, with Wi-Fi enabled Home Connect functionality, stainless steel handles, disc controls and bigger, brighter TFT touch displays.

# Every connection lets your world grow.

The combination of Wi-Fi enabled Home Appliances and the intuitive Home Connect App offers a wide range of exciting opportunities. Some, easing the workload – some, opening up completely new possibilities.

Thanks to Home Connect and our partners, you can start controlling your appliances just with your voice. All you have to do is connect your smart speaker to your Siemens home appliances via Home Connect, and you can start asking your oven “When will my dinner be ready?” or asking your coffee machine to “Prepare a cappuccino”.

To find out more visit [siemens-home.bsh-group.com/uk/home-connect](https://siemens-home.bsh-group.com/uk/home-connect)

## Ovens

- Recipe World offers you a wide range of delicious recipes – choose your favourite and send the ideal settings directly to the oven.
- Operate the oven intuitively from wherever you are, for instance to preheat it while you are on your way home.
- Control your oven just with your voice. Perfect for when your hands are covered in cake mix.

## Coffee Centre

- The coffeeWorld in your Home Connect App provides an additional variety of delicious coffee specialties from around the world.
- The coffeePlaylist enables you to transfer the beverage wishes of all your guests remotely to the appliance at once – the coffee centre will then prepare one after another.

## Hoods

- Operate the hood intuitively from wherever you are, for instance to turn it on 10 minutes before cooking for best results.
- Access 256 colours to set the ambient lighting of selected hoods with emotionLight Pro.

## Dishwashers

- Remote controlling lets you select options, and start programmes intuitively, wherever you are.
- With the Tab Counter you can get Push Notifications straight to your mobile, via the Home Connect App, whenever the supply of dishwasher tabs needs to be refilled. The app also allows you to automatically order more tablets via Amazon Dash Replenishment so you never run out of tablets.
- Use your smart phone or tablet to choose from a wide variety of interior colours with emotionLight Pro.

## Perfect design coordination

Whether you are looking to save time in the kitchen or you want to create restaurant quality food in your own home, Siemens studioLine ovens have been designed with innovative features to perfectly compliment your lifestyle.

The distinctive studioLine black steel design has been incorporated throughout to ensure perfect co-ordination\* with the rest of the range.

The new iQ700 HB878GBB6B oven is perfect for people who are looking for a versatile oven with activeClean, an automatic system for effortless cleaning. This product is also ideal for installation with 2 or more full size ovens co-ordinating perfectly with the HN878G4B6B with microwave and pulseSteam and the fullSteam HS858GXB6B.

The iQ500 appliances are perfect for customers who want the design and quality of a studioLine appliance but prefer more traditional dial controls rather than the TFT touch display.

\*iQ500 ovens and compacts are not suitable for installation alongside iQ700 models

### iQ700 HB878GBB6B Black

Single oven with activeClean

- coolStart: no need to preheat the oven for deep frozen food
- 4D hotAir: cook on up to 4 shelves simultaneously. Sweet and savoury can be cooked together without flavours intermingling
- roastingSensor Plus and bakingSensor: detect the exact moment when your food is cooked
- activeClean: the automatic system for effortless cleaning
- TFT touchDisplay Plus: clear text display and intuitive operation
- Home Connect: access to your oven via smartphone or tablet
- Capacity – 71 litres

# Coffee centre and accessories

Pure precision for perfect coffee indulgence:  
Your favourite coffee,  
just the way you like it.

Stunningly, uniquely Siemens, our studioLine coffee centre conveys an elegant impression of absolute quality and intelligent innovation for those passionate about coffee.

The design of the studioLine coffee centre is perfectly aligned with the entire studioLine oven series. To keep the sleek lines looking clean, all milk, water and bean containers are conveniently hidden behind the coffee centre's door, while the TFT touchDisplay and LED lights put each coffee in the spotlight.

Designed with easy access to the water tank, coffee bean container and insulated milk jug, the coffee centre has front access thanks to a hinged front panel – so it is quick and easy to replace the water or beans. The milk tubes are also cleaned with steam after every milk beverage and as most of the components are removable and dishwasher safe, they are also easy to clean. Easy to install, the machine requires no extra plumbing.

Prepare and cook food with the most exquisite flavours and delicate textures using the sous-vide setting and vacuum drawer.

This is achieved by vacuum sealing your ingredients in the Siemens vacuum drawer and leaving them to marinate before cooking gently on an exact low temperature in your studioLine oven. This ensures that any moisture and flavour is fully absorbed into the food, for a gastronomic fine-dining experience in your own home.

# Hobs.

Experience the freedom of cooking with freeInduction.

Total flexibility in size, shape and position of cookware. The innovative full surface induction hob allows you to experience a new level of flexibility.

# Induction hobs

Model shown: EX807LX33E inductionAir hob

## inductionAir. Our best induction hob, evolved.

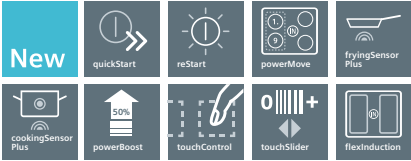

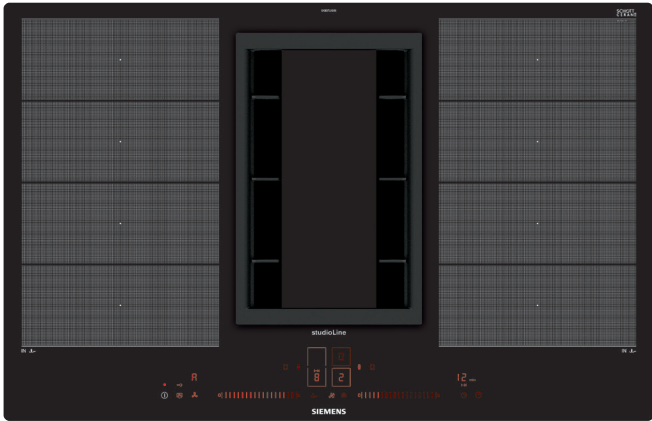

Combining induction technology with powerful extraction, the inductionAir hob is intelligently designed for your kitchen.

**inductionAir venting hob**  
The inductionAir venting hob gives you the freedom to design your kitchen how you want to, with the added benefit of hassle-free cleaning. The innovative design means that the grease filters fit into an entirely detachable liquid tray unit which is designed to completely protect against spillages and over-boiled liquids.

**How does it work**  
All parts of the inductionAir venting hob are neatly arranged in a liquid tray unit, accessed from the top of the hob. Each of the parts are dishwasher proof, including the cast iron and black glass air inlet grid, the 2-in-1 grease filter and the liquid tray. Each part is also separate to save space in your dishwasher.

**Protects from spills**  
As a first layer of protection, the cast iron and black glass air inlet grid is designed to limit the flow of liquids into the ventilation module. As a second layer of protection, the liquid tray captures up to 200ml from day-to-day cooking and can be easily discarded. As a special layer of protection, up to 2 litres of liquid can be held in the liquid safety tank, accessed from beneath the appliance, protecting the appliance from further damage. This means you can focus on your cooking with complete peace of mind.

**Cooking sensor included**  
Engineered with our most advanced induction and ventilation technology, unique solutions such as cookingSensor Plus and fryingSensor Plus ensure your food is cooked at precisely the right temperature. Whilst the climateControl sensor automatically adjusts the extraction level by sensing what you cook. Designed for a seamless fit with your kitchen, as well as your life.

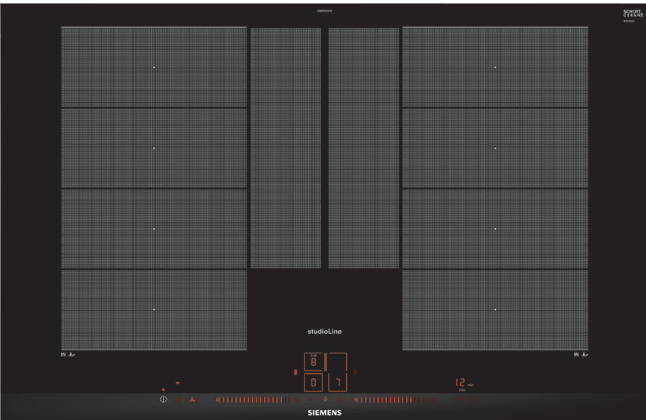

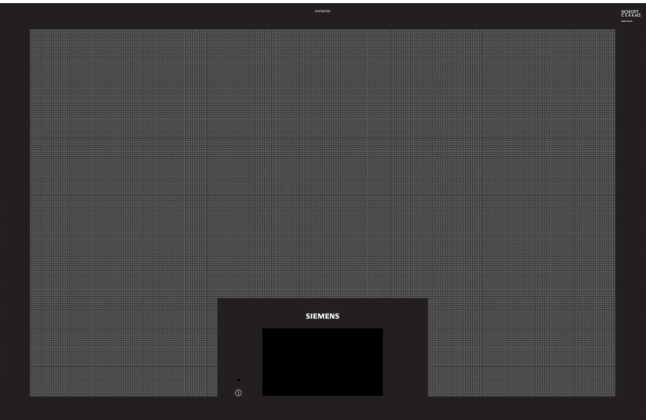

### iQ700 EX807LX33E Black glass 80cm

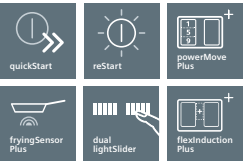

- inductionAir hob
- flexInduction adapts the cooking zones to different cookware and pots up to 24cm diameter – for more flexibility
  - powerMove Plus enables intuitive control thanks to three heating zones with different temperatures, just by moving the pan
  - dual lightSlider lets you easily and intuitively operate the hob
  - iQdrive: powerful and quiet extraction
  - The climateControl Sensor monitors steam and odours and adjusts the power level automatically
  - flushFit design for seamless integration within any kitchen design

# Hoods.

## emotionLight Pro.

Light up life in your kitchen. Discover the new Siemens decorative hoods: the ultimate design highlight in your home. Outstanding performance meets stunning design, the new emotionLight Pro allows you to change between different background lights and bring a personal feel to your kitchen, whatever the occasion.

# Hoods

Model shown: LD97DBM69B downDraft hood

For a unique way of extracting, our iQ700 downDraft hood is ideal for installation in an island and for open plan kitchens.

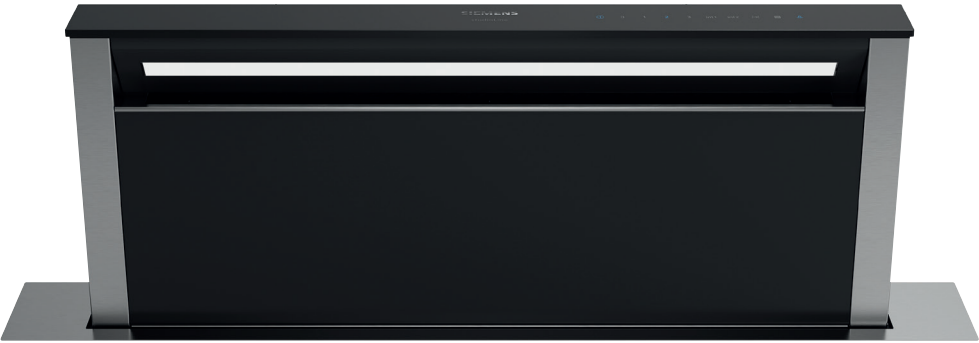

The elegant and powerful downdraftAir system can be easily raised when needed and combined with almost any Siemens hob\*.

Conveniently placed under the worktop, the unobtrusive downDraft hood can be raised when needed and then lowered when not in use at the touch of a button.

The studioLine model features a black frame around the strip light and matte trim so that it co-ordinates perfectly with the rest of the range.

Its quiet high performance motor with an impressive extraction rate of 750m³/h ensures efficient odour and steam removal in the kitchen.

\*Recirculation not possible with gas hobs

## iQ700 LD97DBM69B Stainless steel and black glass

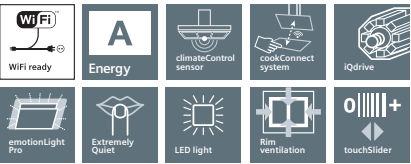

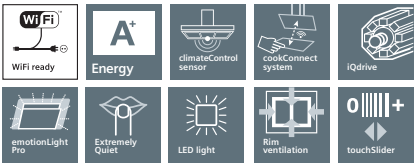

90cm

### downDraft hood

- The quiet high-performance motor with an impressive extraction rate of 750m³/h ensures efficient odour and steam removal in the kitchen
- The motor can be flexibly installed, allowing greater use of the space under the worktop for drawers and storage
- Space-saving installation of the downdraftAir system makes it the only worktop ventilation solution which allows a drawer directly under the worktop
- The energy-saving and bright LED lighting ensures better visibility when cooking
- At 62dB the hood is pleasantly quiet when being used

# Dishwashers.

## timeLight.

Check the status of the cycle easily. Useable on any surface of any colour, the innovative timeLight projects the remaining time as well as other essential information of the dishwasher cycle onto the floor. With quiet dishwashers, this solution lets you know the dishwasher is running at a glance, so you can avoid opening the door mid-cycle.

# Dishwashers

## Speed, performance and efficiency built-in: studioLine dishwashers

studioLine dishwashers set new standards for speed, cleaning performance and energy efficiency. This means built-in dishwashers from Siemens are among the fastest and most economical in the world, without compromising on exceptional cleaning results. Thanks to innovative features such as Zeolith®, a mineral technology that delivers brilliant drying results, studioLine dishwashers offer an energy efficiency class of A+++.

**Efficient, high quality drying: Zeolith® mineral technology**  
The exclusive Zeolith® mineral technology delivers brilliant drying results at energy efficiency class A+++.

**Add an extra sparkle**  
Our brilliantShine system combines our low temperature glass care programme with our advanced water softening technology and Zeolith® drying to ensure your glassware is taken care of. Straight from dishwasher to table, Shine&Dry gives you streak-free, shining glasses. Harnessing the power of Zeolith® at its best, the special drying cycle also works just as well on plastics, pots and pans. Saving you time, you no longer need to give glasses an extra towel dry to smarten them up.

**varioFlex Pro basket system and varioDrawer Pro**  
varioFlex Pro Baskets create extra room for pots and pans. With an optimised lower basket design for large plates and adjustable tines highlighted with blue touchpoints, your dishwasher can adapt to any load quickly and easily.

Adding a third loading level for cutlery, varioDrawer Pro removes the need for a cutlery basket and creates more space, even for espresso cups.

**Effortless opening without handles: openAssist**  
Cutting-edge kitchen design features clean, straight lines and minimalist panels without handles. studioLine speedMatic dishwashers open effortlessly thanks to openAssist. Just press lightly on the front of the dishwasher and the door will open electronically.

**TFT Display**  
The clearText TFT Display integrated into the top control panel of our iQ700 dishwashers matches the seamless design of our handleless openAssist models. The clearText TFT Display shows all selected programme information at a glance. What's more, the information button allows you to quickly discover available programmes and options with ease, as well as see the exact start, end and running times.
